Next General Meeting – Tuesday, February 13, 2018 (Program starts at 6:30 p.m.)

Location: Fellowship Hall - Amherst Community Church
77 Washington Highway, Snyder NY 14226

NOTE: Please park in rear and enter through back door (walk up to 2nd floor)

Program Schedule:

6:30: Nature in Winter

We will explore some of the ways wildlife adapt to winter, wildlife signs you can spot while hiking, skiing and snowshoeing, and some of the best places to spot wildlife in winter. We will also explore ways to be more nature aware all year long with the science of phenology.

We will meet in the community room adjacent to our main meeting room from 6:30 until 7:15. Please come prepared to learn and share your knowledge as well. We are always looking for new topics for our workshops. Please contact your education chair, Teresa Corrigan, TeresaCorrigan85@gmail.com if you have ideas or questions!

7:30: ICE VOLCANOES: DAVE MCQUAY,
NATURALIST; NEW YORK STATE PARKS

Learn about Lake Erie ice volcanos which transform the winter ice into a bizarre lunar like ice scape of craters, cones, ice caves and ice sculptures! Along the lakes' shoreline large ice cones form and erupt through the ice volcano vents like geysers shooting water high into the air. Discover ice volcanoes and more with a power point spanning the last 10 years of Lake Erie ice formations. Question and answer period to follow.

Message From the Chair, Paul Gannon

I want to continue my efforts to promote Ambassadorship in chapter members by encouraging everyone to continue to display excellent behavior while engaging in ADK activities.

We live in difficult times. Our country seems to be split into separate camps. Civil discourse has suffered. True, perhaps. But what has that got to do with ADK, you might ask?

Well, ADK is a public organization. We conduct our business in full view of others. We even have non-member guests attend our functions. ADK is also a political organization. We were founded to protect the Forest Preserve. One of our pillars is environmental advocacy. We maintain a Public Affairs office in Albany that employs lawyers and lobbyists, and our dues support that function.

There is an old saying, that if you are not part of the solution, you are part of the problem. I want ADK and our chapter to be part of the solution.

*We will always be passionate defenders of the environment, and environmental science. If those activities cause others distress, then so be it. However, there are ways to advocate for our beliefs while still maintaining a sense of decorum. As the Desiderata says, "... as far as possible without surrender, be on good terms with all persons. Speak your truth quietly and clearly; and listen to others ... they too have their story. Avoid loud and aggressive persons, they are a vexation to the spirit."**

When on an ADK outing, use discretion when discussing issues that are not related to our activities, especially when you are around other people that you do not know well.

From time to time, you may encounter individuals who engage in outdoor pursuits that differ from our core activities, such as hunters and snowmobilers. Remember that they also love the outdoors, although in different ways. While we may not always agree on the means, they can be allies in our efforts to protect the environment. If one of them approached us, would they be welcome? I believe that they would. It is up to each of us to ensure that they are.

We have an opportunity to set an example that others may follow. This example will bring further honor to a wonderful organization. In doing so, each of us will serve as an Ambassador for our club. Let us continue to take advantage of that opportunity.

** The Desiderata, by Max Erhmann 1927*

Conservation Corner, Lynn Rehfeld-Kenney, Chair

The Conservation Committee meeting will be held at Ann Lazroe's home on Tuesday, February 20th at 7:00pm. Call (716) 689-1861 for directions.

The Conservation Committee is working on an exciting new project proposed by new members, Kim Downing and Joseph Schretzman. The committee plans on providing information on what types of

native plants are good to plant in your yard instead of purchasing non-native annuals each year. Native plants provide homes to native butterflies and animals for you to enjoy. We are in the process of arranging for a knowledgeable speaker and hope to provide club members an opportunity to either purchase or possibly obtain some free native plants.

Attacks on the environment never stop. To learn the latest environmental news, join us at the next Conservation Committee meeting!

Winter Mountaineering School Scholarship Recipient Correction Notice

In last month's newsletter, "Michael McCormick" was incorrectly named as the recipient of the ADK-NFC scholarship for the Winter Mountaineering School. The correct recipient is MICHAEL SWAIN. Michael Swain plans to complete the Day Hiking Program in the White Mountains of New Hampshire in March. Michael also plans to begin training for the Niagara Frontier Search and Rescue Team. We wish Michael the best of luck and apologize sincerely for this mistake.

The Executive Committee would like to thank MARK McCORMICK for presenting a wonderful slide show, along with Michael Swain, about the Winter School during our December Holiday Pot Luck Meeting. I apologize to Mark and Michael for the name mix up. --- Mary Schraven, Outings Chair

12/30 – TRIP REPORT for KNOX FARM STATE PARK

Six hardy ADK'ers braved the cold and windy weather to ski and snow shoe at the beautiful Know Farm State Park. After the crossing of the open field, the rest of the outing was sheltered from the wind by the snow-covered woods. With only the sound of chick-a-dees breaking the silence of the woods, we all felt refreshed and enlivened by the exercise, the nature and the companionship. We also enjoyed the delicious coffee and French pastries at the old Sheep Shed. I'm so happy we skied that day, as this week, Jan. 9-13th, all the snow melted and the warm temperatures took over. Check out this State Park every Friday morning with Carol Griffis!
