- **Northtowns Gain a Go-to Gear Store**

After the much anticipated wait, **Gear for Adventure** opened their second location in Amherst, NY this past Saturday! The North store, located at 3906 Maple Rd. near Niagara Falls Blvd, will be celebrating their grand opening on June 15, 2019 - hope you will join as representatives from companies such as Osprey Packs will be onsite to help fit packs and answer questions, raffles and giveaways will also be happening all day!

For all you trek-obsessed adventurers in the Northtowns, see you at Gear for Adventure North on Maple Road!

Message from the Chair, Paul Gannon

As I said last month, springtime continues to slowly work its way into Western New York. Summer will eventually get here, just like it always does.

I expect that we will have a full schedule of activities during the warm weather, beginning with our picnic on June 9. I encourage everyone to take full advantage of the opportunities.

I would also like to ask everyone who is not already a trip leader to consider leading an outing of your own. The members of the executive committee, co-chairs, and current leaders all stand ready to assist you.

Finally, I would like to suggest that everyone expand the range of activities by trying something new. If you've never been to our facilities at the Adirondack Loj, this would be a perfect time to go. ADK sponsors adventure travel trips, not just in the US, but also around the world. Check them out on the main club's website or in the Adirondack magazine.

In August, I will be accompanying the staff from Earth Spirit Educational Services on a trip to Yellowstone National Park to observe the wolves and other wildlife there. I believe they still have openings.

Hope to see you out there on the trails.

Conservation Corner

Allegany State Park Boundary report. Through the efforts of 25 volunteers on May 4-5, we cleared brush and marked 8 miles of the PA border - this included all of the priority areas. Much thanks to everyone who helped our chapter with this important work.

YOUR INPUT IS NEEDED!

ECHDC presented their “Preferred Plan” for the Outer Harbor on May 2 and they are looking to receive comments to their survey by MAY 31. Please complete the survey at <https://buffalowaterfront.com/accessandactivation/> You can make additional comments to support our vision of a natural, resilient, healthy coastal park that welcomes public access and also supports the ecology of a strategic location on the Great Lakes. For example:

PLEASE REMOVE the following because they are not consistent with the vision of the ecological, natural park and they require excessive public expenditures for a seasonal space.

Grain Elevator Interpretation on Outer Harbor
Boardwalk (rather than walk) from Marina to Playground

Redundant pathways throughout

Too many eating establishments scattered – create centers

Bridge Connecting Michigan Street Pier to Wilkeson

Taking apart Terminal B and building new building inside rather than reusing existing structure

Additional recreational activities near bike park instead of habitat

June 1st – Annual clean-up at Tillman Road Wildlife Management Area in the Town of Clarence. Contact Lynn Rehfeld-Kenney (716) 825-7329 to sign up.

June 9 Sunday – Our annual Picnic and Business Meeting at Chestnut Ridge Park! In addition to fun outings, informative talks, and our elections, we'll make a presentation to the Conservationist of the Year. Please help us promote sustainability & reduce-reuse by bringing your own reusable place settings (plates, flatware, cups, mugs, etc). See you at Chestnut Ridge Park – complete info on website and elsewhere in this newsletter.

Like many of you, our Conservation Committee meetings are going on summer vacation - see you in September!

You don't see any signs of civilization, only the water, the tree-lined banks and blue skies. Intermediate skills are recommended to avoid overhanging tree branches and submerged rocks. All in all, it is a very pleasant place to paddle. Bring water, lunch and a change of clothing in a dry-bag. PFD and a whistle are mandatory and must be worn while in the water. Insect repellent, a sun-hat and sun-screen may be helpful and dress for the weather. Cars will be spotted. Please call for start time and directions to the put-in. All chapters and ADK members and their families are invited to participate, volunteer, and cheer on riders, as well as purchase a mile marker sign on behalf of your business, yourself, or your chapter. The 14th annual event has grown to become ADK's largest fundraiser and provides needed funds to sustain the programs you enjoy and protect the lands you love. Please plan to join us! Details at <https://www.adk.org/play/cycling-information/ididaride/>. Contact Sunday Conine at ADK's Lake George office with any questions, 518-668-4447 or Sunday@adk.org.

ANOTHER HIGH PEAKS RESOURCE! Two-time 46'er, Kate Hacker has made herself available to lead High Peaks or other hikes in that area for aspiring 46'ers from our Chapter. She has some flexibility for the dates and would be willing to work with you to plan and lead your next adventure. Kate will be the campground host at the Adirondack Heart Lake Campground the week starting October 6th and High Peaks Information Center Host the week starting June 30th, but can only do afternoon hikes those days. She can help you plan hikes out of the campground or help you plan other local hikes those weeks. If you want to go at other times these can be arranged for most times of the summer season. Last minute hikes in good weather are fine. This is an alternative to the scheduled weekend trips already posted, which are group trips providing more information and support. Sometimes finding someone to go with last minute when the weather is good is the biggest obstacle to completing the 46! Text or email Kate at (716) 491-7046 (hackerks@gmail.com)

- **TRIP REPORTS**

4/27 - SAT - TIFFT NATURE PRESERVE WORKDAY
12 hearty chapter members met on a cold and windy day between rain drops to plant Tulip Poplar Trees

(*Liriodendron tulipifera*) along the South Shore of Lake Beth. Zachary Goodrich did an excellent job of orienting us to the extreme conditions that these saplings will face from wind and ravaging deer as well as beaver. Digging a shallow hole for the bare root saplings was made more difficult with all the brick and stone material laying just under the sod. The saplings were protected by a 4-foot plastic sleeve that lets in sunlight but keeps the deer and beaver from destroying the struggling trees. Zachary predicted 50% survival rate of the 30 saplings planted. Covered in mud, we all felt great about our small contribution. Still 900 trees left to plant this spring!

Our May Speaker

Our May speakers were Cat Mosley and Greg Liberman from Apex Clean Energy. They are in the process of establishing a large scale wind farm in Barre, NY, along the Lake Ontario shoreline. They shared the complexities of the projects details and the controversy and opposition they face in moving it forward.
